

Granny Bunting Triangles

Dk yarn 4mm hook in **Purple and Gray**

The bunting consists of 7 rounds and measures approx 7" after steam blocking.

The method for working in single colours is more or less the same as described below with one small adjustment. Work your first round as described below, ending with a slip stitch into the 3rd chain of initial ch-6.

DO NOT fasten off. Instead, make a second slip stitch into the corner space.

:: TO BEGIN ::

Chain 4, join with a slip stitch to form a ring.

:: **ROUND 1** (Work out of central ring) ::

Chain 6 (counts as 1 tr + ch-3 corner space)

3 tr, ch-3, 3 tr, ch-3, 2 tr, join with sl st to 3rd chain of initial ch-6.

Fasten off.

:: **ROUND 2** :: (Work out of chain spaces)

Pull a loop of new colour through the first corner chain space from previous round.

Chain 6 (counts as 1 tr + ch-3 corner space)

In 1st corner space 3 tr, ch-1 (this forms part of the 1st corner cluster)

In 2nd corner space 3tr, ch-3, 3 tr, ch-1 (this is the 2nd corner cluster)

In 3rd corner space 3tr, ch-3, 3 tr, ch-1 (this is the 3rd corner cluster)

In 1st corner space 2 tr , join with sl st to 3rd chain of initial ch-6 (this completes the 1st corner cluster).

Fasten off and darn in ends.

:: ROUND 3 :: (Work out of chain spaces)

Pull a loop of new colour through the first corner chain space from the previous round.

Chain 6 (counts as 1 tr + ch-3 corner space)

In 1st corner space 3 tr, ch-1 (this forms part of the 1st corner cluster)

In next chain space 3tr, ch-1 (this is a side cluster)

In next corner space 3tr, ch-3, 3 tr , ch-1 (this is the 2nd corner cluster)

In next chain space 3tr, ch-1 (this is a side cluster)

In next corner space 3tr, ch-3, 3 tr , ch-1 (this is the 3rd corner cluster)

In next chain space 3tr, ch-1 (this is a side cluster)

In 1st corner space 2 tr , join with sl st to 3rd chain of initial ch-6. (this completes the 1st corner cluster).

Fasten off and darn in ends.

:: ROUND 4 :: (Work out of chain spaces)

Pull a loop of new colour through the first corner chain space from the previous round.

Chain 6 (counts as 1 tr + ch-3 corner space)

In 1st corner space 3 tr, ch-1 (this forms part of the 1st corner cluster)

In next chain space 3tr, ch-1 (this is a side cluster)

In next chain space 3tr, ch-1 (this is a side cluster)

In next corner space 3tr, ch-3, 3 tr, ch-1 (this is the 2nd corner cluster)

In next chain space 3tr, ch-1 (this is a side cluster)

In next chain space 3tr, ch-1 (this is a side cluster)

In next corner space 3tr, ch-3, 3 tr, ch-1 (this is the 3rd corner cluster)

In next chain space 3tr, ch-1 (this is a side cluster)

In next chain space 3tr, ch-1 (this is a side cluster)

In 1st corner space 2 tr , join with sl st to 3rd chain of initial ch-6. (this completes the 1st corner cluster).

Fasten off and darn in ends.

:: ROUND 5, 6 and 7 ::

Work as for round 4, adding in extra side clusters with each round. Remember you are working chain-3 spaces in between the corner clusters and chain-1 spaces between the side clusters.

Now then....you have finished crocheting, but you may well find that your granny triangle is looking a little bit worse for wear. Does it have wibbly wobbly edges and untidy curling corners? Well Granny is ready for her Spa treatment!

This method of steam blocking works with any fibre. You need an ironing board, a steam iron and 3 pins.

Turn the triangle over so that the right side faces downwards. Stretch out the top edge and put a pin in each corner. You are pinning directly into your ironing board cover, putting the pins at an angle so they don't ping out.

Pull the bottom corner downwards until the triangle edges look straight and even, and put a pin in the bottom corner.

Now set your iron to the LOWEST heat setting, and make sure you have STEAM.

Now HoVeR!!!! This is VErY ImPorTaNt....**The Iron Does Not Touch The Crochet.** You hover it very, very close, about a centimetre above the surface of the yarn, and you simply allow the steam to do the work. No contact, no pressure. Just the pffffffffffffffff of the steam. Concentrate on the corners. It does not take long, maybe ten seconds is all. And the results are absolutely miraculous.

Take out your pins, and hey presto, the crochet stays exactly as if it were still pinned!
