Learn about the Lords

Thursday 26 November 2026: 2.00 pm – 3.00 pm

To celebrate UK Parliament Week, we are delighted to be joined by members of the House of Lords.

Are you interested in learning more about the House of Lords and its members?

This webinar will be provide an opportunity to hear directly from Members. You'll get an insight into their backgrounds and find out about the work and impact of the House.

They will also talk specifically about the work of the Numeracy for Life Committee, sharing information about the report's findings and recommendations.

You may be aware that Dr David Martin, our u3a Subject Adviser on Mathematics and Statistics, gave evidence to this inquiry in June, speaking on the impact and importance of numeracy to older people's lives, the link between numeracy and financial wellbeing, employment and general wellbeing in older age.

David will talk about his experience of making a submission and giving evidence, which also serves to raise awareness about u3a in parliament.

The talk will end with a Q&A.

The UK Parliament Week is an annual event, this year running from 23-29 November, where schools, local and national organisations and the public as a whole, are encouraged to explore the work of Parliament and find out how they can get involved in issues they care about.

We look forward to seeing you online for this opportunity to engage with some of our country's lawmakers.
